

BIO: **Bella Maranion** (EPA)

Bella Maranion is SNAP Analyst in the Alternatives and Emissions Reduction Branch in EPA's Office of Atmospheric Programs. The branch is responsible for implementing the Clean Air Act's requirements under Section 612 (the Significant New Alternatives Policy (SNAP) Program) and Section 604 (Essential Use Program). The branch also implements voluntary programs with various industries and the military to reduce emissions of potent greenhouse gases (e.g. HFCs, PFCs, SF₆). As an analyst for the SNAP program, review substitutes for ozone-depleting substances, particularly halons, and promote activities with stakeholders to expedite transition to alternatives.
