

BIOGRAPHY
THOR I. EKLUND

Thor Eklund is an aerospace engineering consultant specializing in aircraft systems fire technology. As a consultant, he has recently worked on fuel flammability and fuel tank inerting, OBIGGS and OBOGS air separation technology, material flammability and cabin flashover, and shock waves in liquid fuels. Eklund spent over 20 years with the fire safety organizations at the FAA William J. Hughes Technical Center. He received his B.S.E. from Princeton University and his Ph.D. from Brown University. He is a member of AIAA, SAE, and ASME.
