

Michael Takemori received a BS in physics from Amherst College, Amherst, MA and a Ph.D. in physics from the University of Massachusetts, Amherst. Mike started at GE Central R&D (CRD) in 1975 and has been with GE since then, including 15 years at CRD conducting research in mechanical/physical properties of polymers, followed by 6 years with GE Plastics in Pittsfield and Japan managing materials technology groups, finally returning to CRD (now called GRC-global R&D) in 1997 as a polymer materials scientist, where he investigates mechanical/physical properties of polymers.
