

Monsieur Rémi Deletain

Monsieur Deletain graduated as an Ingénieur CNAM (Toulouse) specialized in Fluid Mechanics, also obtaining a degree in Aeronautical Maintenance. As part of Airbus since 1992, he successively joined the Training Department as Maintenance Course designer, the Customer Services as Flight Controls system engineer, and then the Design Office as Powerplant/Nacelle integration specialist and group leader. He remains with Airbus in charge of the Fire Prevention Protection activity as Group Manager and Designated Certification Specialist for ATA26 Long Range (All areas), A380 and A350 XWB (Unpressurized Areas).
