

Jim Davis

Bio:

James Davis is the CEO of AccuFleet, the world's largest maintainer of airline upholstery. An FAA Designated Engineering Representative for more than 20 years, Mr. Davis set up and has operated one of the first independent oil-burner testing facilities in the US.

Prior to joining AccuFleet, Mr. Davis was a consultant with Price Waterhouse, and an engineer working at Texas Instruments. Mr. Davis holds an M.S. in Operation Research and an M.B.A., both from Southern Methodist University. He received his B.S. in Electrical Engineering from Rice University.
