

Wei Lu

Wei Lu received his B. S. degree in Applied Chemistry (2003) and M.S. degree in Materials Science (2006) from Huaqiao University, under the supervision of Prof. Guohua Chen. After a two-year stay at the University of Cincinnati with Prof. Jude Iroh, he moved to Rice University, where he is pursuing Ph.D. under the guidance of Prof. Tour. His current research involves the synthesis and characterization of carbon nanomaterials to prepare flame retardant additives and sensors for oil exploration.
