

Anna Mracek Dietrich

Terrafugia's Chief Operating Officer (COO), Co-Founder, received her Bachelors and Masters degrees from the Department of Aeronautics and Astronautics at MIT. With experience at both GE Aviation and Boeing Phantom works, Anna brings project management expertise to the Transition[®] development effort. She is intimately involved with the ASTM certification process for both Light Sport and General Aviation Aircraft, serving on both ASTM F37 and F44 committees and having participated in the Aviation Rulemaking Committee (ARC) to revise CFR Part 23 in 2012. Anna was named one of the Boston area's top 15 Innovators by the Boston Globe and has received multiple awards, including the Mass High Tech Women to Watch Award and the New England Achievement Award from Engineers' Week 2012. In 2011, Anna was elected to the Board of Directors of Women in Aviation International (WAI), where she continues to serve. She is also a private pilot.
