

Michael Singer

EASA

Michael Singer is Project Certification Manager (PCM) for Parts & Appliances and has been with EASA for almost seven years now. Prior to this he worked for about sixteen years for a large European aircraft manufacturer in the fields of cabin design and certification where he has been deeply involved in the subject of cockpit security as well as type certification for A318 and A380.

In EASA he is responsible for ETSOA (European Technical Standard Order Authorization) for cabin safety as well as cargo articles. Additionally he is involved in rulemaking activities, design organization approvals as well as research activities of the Agency.
