

Peter Veloo

Peter Veloo has been a Postdoctoral Research Associate at the Fuels and Combustion Research Laboratory at Princeton University for the past two years. He works under the supervision of Prof. Frederick Dryer and the main focus of his research at Princeton has been experimental and chemical kinetic modeling studies of petroleum derived and alternative aviation fuels. He completed his Ph.D. from the University of Southern California in 2011 working on the combustion characteristics of oxygenated hydrocarbons, alternative fuels for ground based transportation. He completed a M.S. in Fire Protection Engineering from the University of Maryland in 2006.
