

Mark Petzinger

Mr. Petzinger has worked in the aircraft industry for over 30 years, the last 18 years with FedEx Express. Since 2006 he has been in the Strategic Projects Engineering Department where he has participated in the research, design and development of Main Deck Supplemental Fire Suppression System (FSS), Fire Containment Covers (FCC) and Fire Resistant Containers (FRC). He is also on the FedEx team developing performance based packaging for the transportation of Lithium batteries and cells.
