

## **Jonathan Torres**

**Jonathan Torres is a Senior Mechanical Engineer for CSRA where he has spent the last five years conducting ARFF research for the FAA. Areas of research have included aviation biofuels, cargo firefighting on freighter aircraft, High-Reach Extendible Turret (HRET) technologies, and aircraft-grade composites. Jonathan is also a member of the NFPA ARFF Technical Committee. Jonathan graduated with a Master of Science in Mechanical Engineer from Rutgers University where he concentrated in thermo-fluid phenomena.**
