Luis Gomez

Lab Manager

Computational Mechanics Lab

luismanuel@niar.wichita.edu

(316)978-7280

As lab manager of the Computational Mechanics Laboratory, Gomez coordinates and manages an interdisciplinary team of full time and students employees that assures that all the clients' requests are successfully accomplished in time and manner.

Luis Gomez current expertise includes experimental and computational work, in particular in the area of crashworthiness. At NIAR, Luis Gomez has participated in over 50 research projects funded by various US Federal

Agencies and private companies for both aerospace and automotive industry.

Gomez has a Mechanical Engineering Bachelor's degree from the Polytechnic University of Madrid (Spain) and a Mechanical Engineering Master of Science from Wichita State University. Luis Gomez joined the National Institute for Aviation Research (NIAR) as a Research Engineer in August 2008. Before that, Gomez was a Research Scholar at the University Institute of Automobile Research in Madrid (INSIA).
