

Susan Malohn Biography

Susan Malohn is a Standards Engineer of Underwriters Laboratories Inc. Since graduating from Bradley University with a Bachelors in Mechanical Engineering, Susan has served as a Project Manager of UL's balanced standards development consensus bodies, i.e., Standards Technical Panels (STPs), comprised of volunteer experts responsible for UL Standards for Safety intended to manage the hazards associated with regulated products to mitigate risks to the public and consumers. She also monitors progress of related work, maintains appropriate records, including STP rosters, minutes of meetings and voting results, and manages STP recruitment strategy, membership, and balance. Susan is the Project Manager for the Standards Technical Panel for Battery Fire Containment Products, STP 5800, which was formed July 2018.
