

Garrett Mattos, PhD
Freidman Research Corporation

Dr. Garrett Mattos (PhD, Science, University of New South Wales) is FRC's Director of Occupant Protection. Dr. Mattos has over 10 years experience in safety research, data collection and analysis. He has international experience in the development of dynamic test methods and test equipment. Dr. Mattos is engaged in occupant protection and crashworthiness testing and research. Dr. Mattos' work often involves the use of a combination of full-scale testing, finite element analysis, and real-world crash data.
