

April 2024 International Aircraft Materials & Systems Forum Meeting Details

Meeting Dates: April 16-18, 2024

Meeting Redesign:

In order to maximize participation and minimize travel and venue costs, we have decided to combine the Forum meetings into one meeting.

In addition, we are structuring the meeting based on our internal Research Project Areas (RPAs). The RPAs include Cabin Safety, Hazardous Materials Safety, Cargo Compartment Fire Suppression, Long Range Research, and Engine/Powerplant Fire Protection.

Meeting Location:

Congress Center Bremen

Use Eingang Bürgerweide (Bürgerweide Entrance) – [see Site Plan document].

Go to Borgward Saal for meeting room.

Bremen, Germany

Additional Location Information: An exact street address is not given, because there are many entrances to the various Event Halls in the Congress Center. Be sure to enter through the Bürgerweide Entrance (Eingang Bürgerweide).

The 'Site Plan' document is a map showing the streets and area in front of the Bürgerweide Entrance.

The 'Exterior View Congress Center Bremen' document is a photo of the Bürgerweide Entrance.

The 'Overview Plan' document provides a map that shows the general location of the Congress Center Bremen.

Meeting Registration (required):

Online meeting registration required. Attendee list will be sent to Airbus on April 5, so be sure to register prior to April 5, 2024.

Airbus EcoMaT Laboratory Tour Registration (required):

Online tour registration is required by close of business on March 12, 2024. Tour capacity is 100 participants. If tour fills before deadline, registration will be closed. No late registrations will be accepted (NO exceptions).

Airbus will provide bus transportation for registered tour participants to and from the Congress Center Bremen. Transit time each way is about 15 minutes.

Tour Information: A tour of the laboratories of the Airbus "Center for Eco-efficient Materials & Technologies" (EcoMaT) will be given - including mechanical testing lab, non-destructive testing lab, failure analysis lab, surface lab and the Airbus fire test lab. The tour will take approximately 1.5 hours.

Hotel Information:

There is no group hotel room block for this meeting. There are many hotels in Bremen. Airbus has provided a list of Bremen hotels and a few restaurants (see Hotels & Restaurants document). Many hotels are within walking distance of the Congress Center Bremen.
