

*Dr. Thierry Carriere*

Dr. Carriere graduated from the University of Pau, France in 1996, with a bachelor degree in industrial engineering and from the University of Massachusetts Amherst in 2002 with a PhD in chemical engineering. He then spent 8 years at the United Technologies Research Center, East Hartford, CT, as a research engineer and project manager, developing new fire safety related products for commercial and industrial markets. In 2010, he joined ADA Technologies, an emerging technology development company in Littleton, Colorado where he currently serves as a Vice President. The portfolio of new technologies managed by Dr. Carriere includes fire suppression systems for aerospace and military vehicles, fire safety and containment of on-board large-format lithium-ion battery systems and ultra-high-pressure gas storage and delivery systems.
